BY STÉPHANIE BOUQUET

## TECHNICAL DETAILS ECONYL REGENERATED NYLON

<b>Style:</b>	Hand-tufting
<b>Sizes:</b>	Maximum width 10m, length no limit
<b>Colours:</b>	45 colours in the Regenerated Nylon poms
<b>Construction:</b>	Tufting frame
<b>Pile Material:</b>	Regenerated Nylon
<b>Yarn Count:</b>	NM 10/2
<b>Primary Backing:</b>	100% Polyester   Count: Nm 9/1   Weight: 180g/m <sup>2</sup>
<b>Secondary Backing:</b>	100% Polyester   Count: Nm 5.6   Weight: 225g/m <sup>2</sup>
<b>Latex:</b>	Natural latex
<b>Pile Height:</b>	18mm
<b>Total Thickness:</b>	20mm
<b>Pile Weight:</b>	3.2 kg/m <sup>2</sup>
<b>Total Weight:</b>	3.7 kg/m <sup>2</sup>

<b>Reaction to fire:</b>	<b>B<sub>fl</sub>-S1</b>
<b>Thermal Resistance:</b>	0.136 [M <sup>2</sup> K/W]
<b>Colourfastness to Light:</b>	8
<b>Luxury Rating:</b>	LC5
<b>Professional Usage Class:</b>	Heavy contract
<b>VOC Emission Test:</b>	Requirements fulfilled
<b>Castor Chair Suitability:</b>	Suitable

### FEATURES

Regenerated Nylon rugs have specific features and one of them is having high resistance to light and low deviation in colour between lots. Another particularity is the easy maintenance required by these fibres.

It is important to vacuum the rugs often, in order to clean it, and also recover the pile, which might present some height differences due to high people traffic and wear. It is not advisable to use central vacuum or low power vacuum's (we advise 1200W of power.)

It is also important that rugs are turned regularly, so that the effects caused by light and normal wear might be equivalent in the whole surface of the rug. When there is furniture placed on the rug exercising pressure, a rug protection can be used so it won't damage the pile and the overall look of the rug.

### GENERAL CLEANING

Regular cleaning is essential to maintain the appearance of your rug. Use a good vacuum cleaner, which should have 1200W of power. Vacuum in the direction of the pile. Regenerated Nylon rugs must be cleaned regularly. Naturally, lighter rugs need to be cleaned more often than darker ones. For Regenerated Nylon rugs we recommend water cleaning if the water is less than 30 degrees, with a neutral pH soap or detergent. For deeper cleaning, please use a specialised rug cleaning company.
